STATEMENT OF AMICUS CURIAE,

I am writing to request that you hear the Edgewood v. Kirby suit on behalf of the school districts in Texas with low property values per student.

Sanger ISD has the second highest tax rate out of the eleven schools in Denton County, and at the same time, Sanger has the second lowest value per student in Denton County - this is no coincidence. As a result, our school does not have adequate funds to meet state mandates, provide adequate science labs, etc.

A student's educational opportunities should not be determined by where he or she happens to be born or where his or her parents happen to live.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Sincerely,

STATEMENT OF AMICUS CURIAE,

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our schools have had roofs that leak, low salaries from the custodians to the superintendent, lack of equipment, etc., and high taxes for years. Our tax rate was \$1.20 per hundred back when \$0.50 and \$0.80 rates were considered high.

More money is needed now for the low value districts to meet the challenge of educational reform; further delays will do irreparable damage.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Thank you,

STATEMENT OF AMICUS CURIAE, Hazel Burgess

I am vitally concerned about public education in Texas and about the failure of the Legislative and Governor to support an equitable method for the distribution of state funds in Texas.

Our schools have had to do without the extras. There seems to be lack of equipment, supplies, and counselors. This is very unfair that students from small school districts have limited resources.

I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

STATEMENT OF AMICUS CURIAE, JAN LOOPER

Lack of government funds have caused a lot of choice teachers to go to other school districts for better pay and adequate working conditions.

Taxes in this school district are so high that it causes people to choose to live elsewhere. This puts a burden on the tax payers still residing here. People in this district want a better education for their children but can't afford taxes rising each year due to lack of funding from the state.

I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

STATEMENT OF AMICUS CURIAE

As an educator in a property poor district, I am vitally interested in equity between the so called "property poor" and the wealthier districts in the state. In the last several years Sanger High School has lost state funding due to the PDI which is a part the funding formula. This has caused undue strain on the local budget which had to be cut due to a shortage of money. As principal of the high school, I have seen my instructional budget increased to raise standards and then reduced for two years straight to keep down the deficit. I have had my faculty cut by three teachers while the enrollment has remained essentially the same; consequently, the number of elective courses available to the student has been reduced. I have had extracurricular budgets cut in all areas. I have had to move classes into portable buildings instead of building additional permanent classrooms.

This puts the students of Sanger and other "property poor" districts at a disadvantage in giving its students the same advantages as the richer school. It limits the opportunities that the students need to compete with students from the wealthier districts. It discourages the students in achieving the excellence that should be sought in every educational setting.

This has also caused morale problems among the faculty with several professionals seeking employment elsewhere for more money and where more instructional materials are available. Teachers also have begun to wonder whether they are really important since their needs for the classroom are not being met.

I hope that these comments will help in making a decision to see that funding will be made more equitable among all the districts of Texas and not favor those districts with with larger population or greater tax base.

STATEMENT OF AMICUS CURIAE, Vickie Jenkins

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for distribution of state funds in Texas.

As a parent of two graduates of Sanger High School and a taxpayer, I am concerned because of the rising cost in our school district. My concern is well warranted because we pay higher taxes than any other school in our district, but our children have not benefited educationally. The good teachers we have are spread so thin it is not possible for them to do their job. For example, a high school with approximately 400 students has to share a counselor with the middle school. This gives one counselor the impossible job of working with almost 700 students. I find this appalling; a counselor's job is too important.

In short, we need your help for the benefit of the future of Texas.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

STATEMENT OF AMICUS CURIAE, SUSAN BURKHART

I am concerned about the overall quality of education in the state of Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

To meet the increasing cost of operating the Sanger ISD, due to the failure of the State of Texas to adequately fund public education, the local Board of Sanger has already taken the following action this year:

- 1) Lowered the local increment paid to teachers by \$500.00.
- 2) Cut staff (two teachers, three part-time custodians, and two cooks).
- 3) Cut practically all budget areas (maintenance by \$50,000, extra-curricular--athletics, band, drama, etc.) by 14%.
- 4) Frozen salaries of 93 employees.
- 5) Leased a new bus instead of buying out right.
- 6) Did not meet the 22 to 1 student/teacher ratio in grades 3 and 4.
- 7) Raised local taxes by approximately 2.9%.

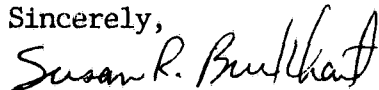

In spite of the measures mentioned above, the SISD projects a \$110,000 deficit for the current school year. We are just one of many school districts with these common problems.

What happens when the low property value districts are rendered inoperable? Who will be to blame?

If Texas expects to have a prosperous future, an investment must be made in the leaders of tomorrow.

STATEMENT OF AMICUS CURIAE Nancy Roe

As a citizen of a small rural school district, each year I see young men and women being graduated from high school without the preparation they need to compete in higher education or the working world.

While life will always have inequities, it makes no sense for some to have every educational opportunity, while those who live across an arbitrary, imaginary line are neglected. I can't help but feel that it's less expensive for us to educate people than to support them later in prisons or on welfare.

STATEMENT OF AMICUS CURIAE, Wayne Tutt

As a taxpayer, I have only now come to realize that all of the rest of the school districts in the metroplex have not been paying a tax rate as high as \$1.24 just to support their schools.

I did not know that the so-called school reform and that the equity in the distribution of state funds to public schools started by H.B. 72 has not been met by the legislature until just recently.

A student's educational opportunities should not be determined by where he or she happens to be born or where his or her parents happen to live.

I urge you to hear and rule in favor of equity in state funds distributed to the public schools in Texas.

Statement of Amicus Curiae, Nancy Hausenfluck

I am vitally concerned about public education in Texas, and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our schools' budget has been cut in almost all areas. The high school building needs to be rebuilt. The roof leaks and we need more room for lockers and equipment. As it now stands just the maintenance has been cut by \$50,000. More staff is needed but already 2 teachers, 3 part-time custodians and 2 cooks have been cut. Last year they were wanting to cut Ag teachers and the Ag program. We need these things for the students to be able to advance to the level needed. Some parents are trying to take up the slack by spending time helping the teachers work with students or grade papers. This is nice, but, not everyone can spend their time at the school. In short, they can not be counted on when needed the most. Ninety-three other employees' salaries have been frozen. Extra-curricular activity has been cut. And local taxes have been raised by 2.9%. Still, the Sanger Independent School District projects a \$110,000 deficit for the current school year.

If this is allowed to continue there will almost certainly be further damages to the district and the education of the students of Sanger ISD.

STATEMENT OF AMICUS CURIAE, Staci Jenkins

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

As a senior in high school I have been witness to the disadvantages we in a less affluent school district have had. I have also noted that my family pays higher school taxes than do those in other school districts. These high tax dollars in our district do not go towards modern science equipment, restocking the library, more experienced teachers or even enough paper to last a whole year. Our higher taxes are necessary simply to keep the school doors open.

It is a terrible feeling when our football team and support groups travel twenty-five miles to play a football game and we feel like a small school playing a Southwest Conference Team because of the difference in their elaborate facilities and uniforms and ours. In short, Sanger I.S.D. has been at a large disadvantage because of the shortage of funds.

I authorize an attorney selected by the Equity Center to incorporate this statement in an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Thank you,

Staci Jenkins

STATEMENT OF AMICUS CURIAE, Cherise Frickman

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our teachers at our school have had to buy many materials for teaching their students and that is definitely unfair. Why should teachers have to use the money out of their pockets to buy necessary materials, is that right that teachers should have to do that?

More money is needed now for the low value districts to meet the challenge of educational reform; further delays will do irreparable damage.

I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioner-Invervenors in the Edgewood case.

STATEMENT OF AMICUS CURIAE, *Terry McClure*

I am vitally concerned about public education in Texas and about the failure of the Legislature and Governor to support an equitable method for the distribution of state funds in Texas.

Our schools have had roofs that leak, low salaries from the custodians to the superintendent, lack of equipment, etc., and high taxes for years. Our tax rate was \$1.20 per hundred back when \$0.50 and \$0.80 rates were considered high.

More money is needed now for the low value districts to meet the challenge of educational reform; further delays will do irreparable damage.

I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioner-Intervenors in the Edgewood case.

Thank you,

*Terry
